

THE MONEY MARKET.

SUNDAY, Jan. 28—P. M.

The Custom House returns of the foreign movements of merchandise last week at New-York make an unfavorable exhibit for the port. The imports for the week were valued at \$11,409,553, which is \$3,595,338 greater than the imports for the week of 1882 and \$2,887,949 greater than for the week of 1881; the exports last week were valued at \$6,574,998, and that sum is \$702,292 less than the exports for the week of 1882 and \$595,086 less than for the week of 1881. Hence, the merchandise movements of last week show a balance against the port of \$4,834,555, while for the weeks of 1882 and 1881 the balances against the port respectively were only \$36,925 and \$1,381,520. From January 1 to date the imports of this year have amounted to \$2,480,927 less than for the same period of 1882, but \$2,681,640 more than for the period of 1881. The exports this year have amounted to \$1,164,053 more than for the same time of 1882, and to \$690,766 less than in 1881. So that the balance against the port on the four weeks' movement of this year is \$3,652,980 less than for the same time of 1882, but is \$4,642,400 greater than for the same time of 1881. Deducting the specific movement, the balance against the port for the four weeks this year is \$3,539,160 less than in 1882 and only \$471,775 greater than in 1881; but in the four weeks of 1881 the import of seeds amounted to \$4,180,661.

The following table shows the totals of imports and exports, other than of securities, at New-York, from January 1 to date, for three years:
